

**Something  
Exciting !!!**

**Coming  
Soon...**

CHANGING THE FUTURE OF  
YOUTH SHOOTING SPORTS

**New 5 Stand coming to Sporting Clays in December 2024 thanks to help from the  
Midway USA Foundation**

### **New Additions to Izaak Walton League...**

**Excited to share that in 2024 we applied for a grant from the Midway USA Foundation and received it. Our application asked for funds to help install an independent 5 Stand at Sporting Clays. The project consists of building a lower deck with stairs leading down from the clubhouse, 8 MEC traps offering different bird throwing options, 8 MEC solar panels to keep the 8 new batteries charged and a 8 trap controller to operate the traps. The new trap machines have a cover to help protect them from damage. Midway USA Foundation awarded us half of the cost of installing the 5 Stand and all the equipment it takes to make it run. Tim Stahl of Rec to Tek is building the deck and stairs. The traps, solar panels and batteries are at the club and ready to be installed as soon as the deck is complete.**

**We are excited about this new addition to our club and what it will offer shooters that visit our club.**

**We greatly appreciate the help we received from Midway USA Foundation and the volunteers for making this project happen. This project will help our SCTP team, Ike's Young Guns, work on improving their shooting during their practices, also other shooters work on different bird presentations that were not available prior to having the 5 Stand. It will also offer the charity organizations that hold fundraisers for their organizations an additional activity to help raise more money during their event.**

**We look forward to seeing you at the 5 Stand in the near future!**
